

Micromine Awarded at BRW ANZ Private Business Awards

PERTH – 31 August 2009 - Micromine, the leading provider of innovative software solutions and services to the mining and exploration industry, last week reinforced its position in the global marketplace by being announced a winner of the BRW ANZ Private Business Awards, at a gala dinner held at the Westin Hotel in Sydney, on Wednesday 26 August 2009.

Micromine's success was in the category of "Most Successful Private Business Trading Overseas."

A joint collaboration between BRW and ANZ Corporate Banking, these awards provide recognition to the most outstanding private businesses in Australia.

Micromine CEO Peter Rossdeutscher comments on this success, "we are delighted to have won this award, and that BRW and ANZ have recognised Micromine's strengths in the global market, as well as Australia. Not only does this award solidify our reputation both in Australia and overseas, but it cements our belief that we are a trusted provider of exploration and mining solutions."

One of the primary factors that can be attributed as an advantage in this award category is Micromine's extensive strategic international expansion. This has progressed to include the establishment of offices in over 14 countries around the world, including Australia, Brazil, Canada, China, India, Indonesia, Kazakhstan, Mongolia, Russia, South Africa, Turkey, United Kingdom, United States of America and Ukraine. Micromine's products are also available in English, Spanish, Russian and Chinese.

Micromine's success in attracting and retaining quality employees is a strong reflection of its leading position in the marketplace. Consequently, Micromine's loyal and supportive clients are provided with first class levels of service and software solutions for their mining and exploration requirements.
