

FOR IMMEDIATE RELEASE

### **Micromine appoints Peter Rosseutscher as CEO**

**PERTH – 2 September 2008** – Micromine, the leading provider of productivity software and services to the mining industry, announced today the appointment of Peter Rosseutscher to the newly created role of Chief Executive Officer. He assumes responsibility for extending Micromine's leadership position, as well as strengthening relationships with clients, employees and industry partners. Micromine's founder, Graeme Tuder, will continue to be involved in Micromine's operations.

Rosseutscher has a wealth of local and international experience in senior leadership roles at leading technology companies. He was most recently Managing Director, Asia Pacific and Head of the Global Alliance Division of IT peripherals company Targus Inc. During his tenure, sales more than doubled and service levels improved to world class. Other executive management positions he has held include seven years heading IT giant Gateway Inc. in Asia, where he led 240 employees across 14 countries. Mr Rosseutscher also served as former CEO of \$420 million industrial firm, Arena Asia.

His education includes a Bachelors degree in Computer Science and a Masters degree in Marketing, both awarded by the Curtin University of Technology in Western Australia. In addition, he has served as an Avionics Technician in the Royal Australian Air Force.

Micromine's founder Graeme Tuder explains the new direction in management. *"The company has grown exponentially over the past three years and has an aggressive growth strategy for the future. The new position of CEO is essential to achieve our growth ambitions and Mr Rosseutscher's experience and proven leadership abilities make an excellent fit for the role."*

*"I am thrilled to join Micromine at this exciting juncture. The company has a superb foundation in place so the opportunities to further support clients are enormous. We will continue to focus on strengthening Micromine's position as a leader in software research & development, consulting services and worldwide distribution,"* said Rosseutscher.

- ENDS -

## **About Micromine**

Micromine is the world's most innovative mining software and services company. Founded in 1986, Micromine offers unrivalled industry experience and a commitment to research and development second-to-none. The company is world-renowned for its end-to-end solutions with applications for every stage of the mining cycle. With a formidable market presence, outstanding support infrastructure and strong commitment to R&D, Micromine delivers industry firsts for collecting, managing and integrating information. The company has 14 offices around the globe servicing more than 4,000 clients, making it the world's most recognised brand of mining software.
